Montessori/ Home Connection

We are working on research about the different celebrations in December around the world. Look for the display of our findings.

Healthier Living

Teaching your child proper oral care at a young age is an investment in his or her health that will pay lifelong dividends. You can start by setting an example; taking good care of your own teeth sends a message that oral health is something to be valued. And anything that makes taking care of teeth fun, like brushing along with your child or letting them choose their own toothbrush, encourages proper oral care.

Quotes of December

“Preventing war is the work of politicians, establishing peace is the work of educationists.”
